

# The Ocean: A Wonderful Key to Health and Healing

My Wife and I

Can sea minerals and seaweed make a difference in our health? My name is Paul Schneider, Jr. I am the owner of a company called Max-Well, with "Solutions for Maximum Wellness." I'd like to share my story about how I was inspired to start this company and why I believe our products can help bring health to you and your family.

Believe it or not, it all started with fertilizer. Back in 1969, my dad started his company Tech-Ag, selling soil amendments to farmers and working as an animal nutritionist. Although I would eventually follow in my father's footsteps, God first took my family and I to West Africa, where we served as missionaries for 13 years. While in Ghana I worked as a pilot, teacher and pastor and my wife worked as a nurse. We both witnessed heartbreaking poverty and malnutrition. Later, I would discover a great source of nutrition that is available to us - from the sea.

After moving back to the United States, I decided to get into the fertilizer business, and in 2003 I started AG-USA. One of our products was a sea mineral fertilizer. Customers reported reduced plant diseases and increased nutrient density in what they grew. This was a great start. In 2004, I read Dr. Murray's book *Sea Energy Agriculture* and became really excited about the vital role that sea minerals play in our health.

## Zero Disease in the Ocean

In his book, Dr. Murray talks about his experiments with sea minerals. The process began when he did an autopsy on various sea creatures and discovered zero disease in them, while similar species of fish living in lakes and streams were riddled with disease.

Dr. Murray believed there was no disease in the ocean because sea plants and sea animals live in a perfectly balanced mineral environment. Sadly, many of the trace minerals found in the ocean are no longer available to plants growing on land.

## Animal Health and Sea Minerals

After studying sea creatures and finding zero disease, Dr. Murray decided to study the effect sea minerals would have on land animals. One study was with a group of mice that were genetically prone to developing

breast cancer. Some were fed a normal diet and some were fed a diet of food grown with sea minerals. Those that were given the sea minerals lived twice as long because they never developed breast cancer. They had 10 litters, in comparison to the other group that had only two or three litters, dying of cancer. Another study was with a group of rats that had a deadly eye disease. Those that were fed food grown with sea minerals showed no eye disease.

## Human Health and Sea Minerals

Similarly, Dr. Weston A. Price evaluated people groups that lived in great mountain basins. Here, trace minerals remained in the soil instead of being washed out into the sea. Dr. Price found that the people living in these areas had very little tooth decay or other diseases. Some lived to be 120 years old. Trace minerals are that important to health. Just imagine what life would be like without sickness or disease. Imagine feeling really good each and every day.

## Ionic Sea Minerals

Two years after reading Dr. Murray's book, I was told about an interview in Acres USA with Gerry Amena in Australia. Gerry manufactured and sold a concentrated ionic sea mineral solution that could be used both as a fertilizer and, under another label, taken as a mineral supplement.

In 2006, I became the US distributor for Gerry's sea mineral fertilizer. I also began adding the supplement version of the sea minerals to my diet. I wanted to experience the wonderful benefits spoken of by Dr. Maynard Murray. I got far more! As it turns out, taking Ionic Sea Minerals is a great way to stay regular. Within a day, my chronic constipation was gone. Ionic Sea Minerals contains magnesium, which pulls moisture into the colon, helping the body to expel waste.

Even though it has wonderful health benefits, many people don't want to take Ionic Sea Minerals because of its bitter taste. We have since found a solution - to flash dry the sea minerals into powder form and put this powder into capsules. No more bad taste!

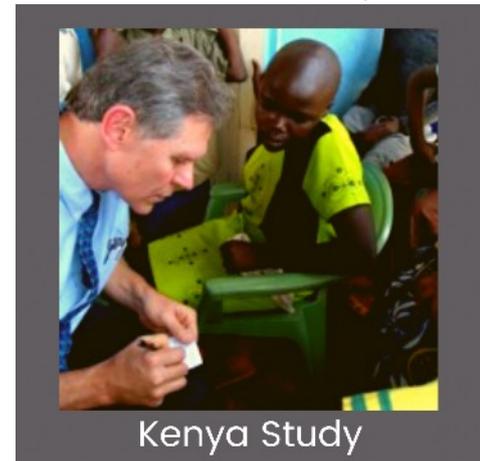

**"I really like the Ionic Sea Minerals. I can tell that I am sleeping better, and my constipation issues are gone." - Joyce, MO**

## Helping the Body to Heal

That same year, Gerry told me that he had a cure for AIDS (I can't personally substantiate his claim). I started raising money and then

donating his herb and sea mineral supplement to people in Africa and elsewhere who were working with individuals living with HIV. Within a year I had sent this supplement to 14 countries, and received back some wonderful reports!

Next, a pastor friend in Kenya offered to help me with a study. We started our first randomized, double blind study in December 2010 in Kenya with 90 children who were very sick with AIDS. We gave half of them Gerry's supplement and the other half the Ionic Sea Minerals as a control. Three months later, I was surprised to find that the CD4 tests for those who took Ionic Sea Minerals showed a tiny bit more improvement than the those receiving sea minerals with herbs. This convinced me that the Ionic Sea Minerals was the key.

Kenya Study

Although most of the kids had their health restored by the end of the study, nine of them were still battling for their lives. I then prayed, telling the Lord that we needed something to help these nine children as well. It was then that God led me to Scott Kennedy and his wonderful seaweed supplement. I sent over some of this supplement, and for the next three months these nine kids took Gerry's supplement plus Scott's seaweed. By the end of this 2<sup>nd</sup> three months they were all healthy again!

In 2013, I decided to do a 2<sup>nd</sup> study, this time giving participants five varieties of red and green seaweeds. There were 350 people in the study; two thirds of them were children. I went over to Kenya to oversee the close of the study. Ninety percent of those tested had lost all AIDS symptoms by the end of the study. The symptoms that disappeared were terrible rashes, ringworm, sores in the mouth, and wasting (where they had no appetite for food and wasted down to nothing).

I went from village to village, home to home, interviewing those in the study (You can watch videos of some of these interviews at [www.AidtheChildren.com](http://www.AidtheChildren.com)).

I found that most of those who were interviewed started losing their AIDS symptoms within a month of starting the supplement. Symptoms gone, their bodies were stronger; farmers returned to farming and children were able to go to school. People who were skin and bones were able to put on weight and became healthy!

### Ocean Treasure

In 2016, I decided to start manufacturing my own seaweed formula, Ocean Treasure. It consists of a blend of 9 red, green and brown seaweeds and powdered Ionic Sea Minerals. The sea mineral powder greatly increases the amount of valuable trace minerals in Ocean Treasure. It is an amazing product!

**“My dad ordered me some Ocean Treasure for my acne; three months later my face is clear. I am a happy, loyal customer!” - Shelby, CA**

I sent it to Kenya and Ivory Coast for evaluation. They said “It works better for AIDS than either the Ionic Sea Minerals or the seaweed by themselves.”

HIV is a virus. So is Ebola. When the Ebola outbreak came in Liberia, I sent some Ocean Treasure to a pastor friend of mine in Liberia. If it helps with one virus, perhaps it will help with another. My friend took the Ocean Treasure to a quarantine camp, where people came who had Ebola symptoms. If their symptoms persisted, they would be sent to a treatment center.

Two months later I spoke with the director of the quarantine camp. He said he gave the Ocean Treasure to everyone who came in. He said that within three days, every person returned home, symptom free. Amazing! I tried to get Ocean Treasure into the treatment centers, but they said they couldn't use it because it hadn't been approved by the government.

- I have given Ocean Treasure to three individuals with mononucleosis, and all three made rapid recoveries. One of them had struggled with mono for a year and a half.
- My brother-in-law had West Nile virus. He took Ocean Treasure and within days

was back on his feet. According to my sister, other people in the area with West Nile were usually down for six weeks or more.

- To date, I have given the following daily regimen to 14 of my friends with COVID-19: 10,000 IU vitamin D, four capsules Ocean Treasure, 15 mg. zinc four times a day and 500 mg. Quercetin twice a day. Most were elderly, yet quickly recovered.

Now, I am not making any claims that Ocean Treasure treats or cures anything. It simply supplies the body with amazing nutrients that help it heal. It also helps the body detox from heavy metals.

### Detoxing from Heavy Metals

In 2018, I decided to take a heavy metals test offered by Dr. Richard Olree. Dr. Olree is the author of *Minerals for the Genetic Code*. I had attended his lectures multiple times and was curious what effect Ocean Treasure had on my body. When my test results came back, I had a phone consultation with him. He was totally amazed by my test results. He said, “You must be one of the cleanest people in the world.” During the 25-minute call he commented five times “I can't get over just how clean your body is of heavy metals; and you're 60 years old. Heavy metals tend to accumulate in the body with age.”

My wife's naturopathic doctor recently told me that A VIRUS CAN'T REPLICATE WITHOUT HEAVY METALS. Perhaps this is one of the reasons why Ocean Treasure works so well for viruses – it helps to cleanse the body of heavy metals! It has also been scientifically proven that some of the seaweeds in Ocean Treasure are anti-viral. Praise God, I personally have not had the flu since I began taking sea vegetables in 2010. When COVID swept through our office, I didn't get that either. Could part of the reason be that my body is free from heavy metals?

You can read the article I wrote on detoxing from heavy metals and also view my lab results at the following web address:

[www.max-well.net/detoxfromheavymetals.asp](http://www.max-well.net/detoxfromheavymetals.asp)

### SeaBoost Cream

Another great sea mineral product developed by Gerry Amena in Australia is SeaBoost Cream. This potent cream is a powerhouse of nutrition for the skin and its ingredients help the body heal itself. Along with sea minerals,

it contains 6 oils, 6 herbs, sea collagen, beeswax and supa yew.

SeaBoost Cream has a variety of uses. My dad used it for his psoriasis, and almost immediately his skin started to clear up. SeaBoost Cream does a great job of moisturizing the skin.

**“I have been using SeaBoost Cream on my face for one month now and my face hasn't looked this smooth in years - probably not since I was a baby!” - Kathryn, KY**

One of our customers said she's tried about every facial cream on the market. She said that SeaBoost Cream works better for wrinkles than any of them. I personally use it on my forehead, where I tend to have dry skin and get bumps. It has reduced the bumps to nothing and keeps my forehead from flaking. SeaBoost Cream is very concentrated; a small jar goes a long way!

### The Journey Continues

I'm very grateful for the role I've been able to play in sharing ocean-derived health benefits with others. As I continue to learn, I will continue to spread the word! My goal is to help as many people as possible to be restored to health. I hope that our Solutions for Maximum Wellness will help you!

Please let us know if you would like to try any of the Max-Well products I've mentioned in this article. If you want to sample a bit of everything, we have a Max-Well Sampler Pack available for only \$52.

For one low price, you can try Ocean Treasure, SeaBoost Cream, Ionic Sea Minerals (both liquid and capsules) and SAS - our multi-purpose all-natural soap product. The Sampler Pack also contains our Max-Well information packet, which is chocked full of helpful product details. Please give us a call us write to us. God Bless You!

**There is free shipping on all Max-Well products! Ionic Sea Minerals is \$23 for a 45 day supply. A month of Ionic Sea Mineral Powder capsules is \$42, and three months of Ocean Treasure sells for \$48. The small jar of SeaBoost Cream is \$33, the large jar is \$59. To order any of these items, you can call with a card or mail in a check and tell us what you would like. Dealer pricing is also available.**

For more information on Max-Well products, call or write and request a Max-Well information packet, or you can go to [www.Max-Well.net](http://www.Max-Well.net). Because of so many people calling in, you may need to let it ring for over a minute to reach a consultant: **888-421-5071**. Max-Well, PO Box 73019, Newnan, GA 30271. The statements contained in this advertisement have not been evaluated by the Food and Drug Administration. Max-Well products are not intended to diagnose, treat, cure or prevent any disease. They simply empower the body to heal itself.
