

SeaBoost Cream helps to nourish the skin.

### Easy to Use

- Apply a tiny amount of SeaBoost Cream to the skin and spread around. A little goes a long way.
- Be cautious about applying to broken skin. However, some have noted how quickly broken skin can heal if they can tolerate the stinging sensation.
- Do not stir or disturb SeaBoost Cream. Just skim a small amount off of the top. When stirred, a fluid will separate from the cream.

The ocean is [a rich source of trace minerals](#). SeaBoost Cream nourishes the skin, helping your skin to heal itself.

SeaBoost Cream comes in a Miron glass jar, which enhances the energy and helps to preserve the cream much longer.

It is suggested that you re-use this amazing jar, to enhance anything it holds!

# SeaBoost Cream™

So Good for  
the Skin!

Nourish your skin with low sodium sea minerals, olive oil, coconut oil, argon oil, jojoba oil, macadamian oil, avocado oil, beeswax, sea collagen, supa yew, papaya, sheep sorrel, coleus amboinicus, stinging nettle, pacific yew and nasturtium.

## All-Natural Product

SeaBoost Cream is an all-natural skin care product, containing no artificial colors or fragrances. It is helpful for many skin conditions.

To use, apply a small amount to the affected area and rub gently. Best applied daily, or morning and night.

SeaBoost Cream doesn't contain any fragrances and has a natural, musty aroma.

For help with wrinkles and nourishing dry skin.

## Uses

**Athletes Foot** – Can really burn when applied to broken skin, but empowers skin to quickly heal itself.

**Psoriasis** – Apply a light film and work in a bit. Apply at least once a day, especially after bathing.

Can help to moisturize and nourish psoriasis skin, which can help to reduce itching and flaking.

**Moles** – One customer noted that when they put a bit on a round bandage each day and put over a mole, that after 2 months the mole dried up and fell off. This doesn't work for every type of mole.

## Other Uses

**Sunburns** – SeaBoost Cream nourishes the skin, and can help the skin to heal itself after being sunburned.

**Eczema** – SeaBoost Cream is not generally recommended for Eczema or any other condition where the aim is to dry out a weeping condition.

**Other skin conditions** – You can do your own experimenting to see where SeaBoost Cream works best.

**Wrinkles** – One customer has reported that SeaBoost Cream works better than the many face creams she has tried. Do not apply over the eyes. Use SeaBoost Cream daily for healthy, glowing skin!
